THE SILVER TICKET.

With the very decided majority in the hands of the Silver Party of Nevada, a nomination is equivalent to an election. In a case like this all the more care should be taken in the selection of a ticket.

Where a party is strong beyond the possibility of defeat the danger of a bad ticket is ever present and less care is usually taken in canvassing the qualifications of candidates.

With these facts in view the Silver Party should take as much pains in the selection of its ticket as it would be obliged to manifest in a case where the chances of a candidate were doubtful.

The ticket nominated in the Fall will be the scales in which the people of this State will weigh the calibre of the new party.

We cannot afford to go before the people with anything but a good ticket, as its nominees have four years to serve, and upon the manner of administering the State Government, will depend the party's future.

The Silver party of Nevada is made up of men who wearied of the old parties and their series of bad faith and false pretenses and in the selection of a State ticket, ex Democrats and ex-Republicans should receive equal consideration at the hands of the convention.

The next four years is likely to prove a trying time for Nevada, and the State will require a careful administration of its finances and honesty, economy and good executive ability will be more than ever required to tide us over the shoals and silver depressions to the good times which will follow the disintegration of the National Democratic and Republican parties and settlement of the money questions in the United States.

The Irrigation Movement.

Active preparations are now being made for the next National Irrigation Congress to be held about September 15th, at some point in the West not yet determined upon. The last Congress, which was in session an entire week in Los Angeles, October, 1893, appointed commissioners in every Western State and Territory, whose duty it is to prepare a report to be submitted to the coming Congress covering all the features of special interest in each State and Territory of the arid West. These reports will show the amount of arid and semi-arid land; the amount of land now irrigated and the acreage believed to be irrigable; the sources of water supply, developed and possible of development; the cost of procuring, storing and delivering water on land; State legislation in force and needed; National legislation as to the disposition of arid lands and government control of water sources, and such other points as may suggest themselves to each commission as being pertinent to their own State.

Denver, Los Angeles and Carson are working hard to secure the Congress.

A Carson inventor has invented a device for illuminating keyholes which promises to be a boon to persons out late at night. A recess in the door frame holds a tiny incandescent lamp, which is lighted by a push button. The light is sufficient not only to illuminate the keyhole, but to permit the late-comer to select readily the proper key from his bunch.

Some of the Delaware Indians having been cured of drink by the Keeley method, the leaders of the tribe have just issued an edict that a member of the tribe caught under the influence of liquor will be sent to a Keeley institute at once at the expense of the tribe, and in the case of a constant inebriate his relations will be entirely cut off until he succumbs.—Ex.

The election riots in Kansas City between the Catholics and the American Protective Association have caused the shedding of much blood. Several Irish politicians were killed, and a number of persons on both sides were wounded.

Lack of Exercise

Is one of the prime causes of headache in the winter. Persons accustomed to the pure air during the pleasant months are subject to this terrible annoyance at this time of the year. A boon is offered in Kraus's Headache Capsules, which is guaranteed to cure any kind of a headache, no matter what the cause. Headache caused by overindulgence in food, or drink late at night, can be prevented by taking one Capsule before retiring and one in morning. Ask your druggist for a box.

E. B. Rain has just received a good stock of the Oliver Chilled Plows, also the John Deere Steel Plow, and extras for the same. He has added to his other goods to make the stock complete. Now is the time to get your paints and oils and anything in the house furnishing goods. Call and see the stock. At prices to suit the times.
